Enter the U.S. Sports Betting Market with Continent 8 Technologies

AVAILABLE NOW IN ATLANTIC CITY

New Jersey-licensed Continent 8 Technologies allows gaming

companies to take advantage of the incredible opportunities afforded by the legalization of sports betting in the United States. Continent 8, the world's largest online gaming data center and global network solution provider, has opened new data centers in Atlantic City, New Jersey, providing immediate availability to online gaming, sports betting, and eSports vendors. The company has supported online gaming vendors in New Jersey since 2014 and will soon expand to Pennsylvania and Nevada.

The new Atlantic City Convention Center Data Center provides

a direct link to Continent 8's global network of 40+ data centers. As the only independent provider licensed by NJ's Division of Gaming Enforcement to supply data center and network services to online gambling licensees, Continent 8 can support any online gaming operator seeking to enter the New Jersey and broader US market.

Overview

Continent 8 Technologies is an award-winning, multi-jurisdictional global network solutions provider that connects, manages, and secures the world's most valuable information. Its advanced data centers and high-quality networks support critical online operations in both private and public-sector organizations in over 40 locations across Europe, Asia, and the Americas.

Continent 8 provides unparalleled protection against today's threats. Continent 8's Secure™ time-tested network managed service detects and mitigates DDoS attacks that can be disastrous to online gaming. The Atlantic City expansion connects to Continent 8's global Multiprotocol Label Switching (MPLS) backbone, providing the best-in-class connectivity and support in the industry.

Providing and protecting gaming's critical infrastructure 24 hours a day, 365 days a year. Continent 8 global network features include:

- Over 40 locations worldwide
- Global Private Connectivity
- DDoS Detection & Mitigation
- Public & Private Cloud Services
- Global Public Cloud Connectivity
- Cloud to Regulated Markets
- 24 x 7 x 365 Support

Press Release

SBTech Partners with New Jersey-Licensed Continent 8 to Expand Across the US

February 5, 2019

LONDON, ICE 2019 – In the post-PASPA land-grab, SBTech has secured multiple top-tier domestic partners in both online and on-property sports betting in what is unquestionably the world's largest untapped betting market. Success has been driven by the adaptability of SBTech's products, demonstrated by the varying approaches of the group's new US partners across multiple states. Coupled with the recent recruitment of several of the industry's most experienced and credible names, 2019 promises to be another exceptional year for SBTech.

Supporting this unprecedented growth, SBTech continues to entrust Continent 8 Technologies as its global datacentre and connectivity provider. In 2018, Continent 8's US multi-state capacities increased to include Mississippi, Nevada, New Jersey, Pennsylvania, and West Virginia, with upcoming locations in New York and Ohio. Continent 8's seamless suite of hosting, security and network managed services is primed for those immediately entering the sports betting market in the US and planning further growth as the landscape evolves.

As Richard Carter, CEO, SBTech, said, "We have made an excellent start in the US since the market went live in August last year, securing a series of key strategic partnerships across regulated states, with many more to come as other states begin to open. We have an excellent relationship with Continent 8, and they will be a major partner of ours as the market continues to evolve and we continue to expand across the country."

Michael Tobin, CEO, Continent 8 Technologies, shared his insights on the partnership with SBTech, stating, "We are delighted to support SBTech's rapid growth, particularly in the ever-changing US landscape. Continent 8 has been licensed and operating in New Jersey since 2014 and continues to add creative US offerings. Spring 2019 will see the delivery of our independent, licensed data centre in the state-owned Atlantic City Convention Center. This neutral hub will be connected to our global network and rapidly evolving US multi-state presence, offering our full range of industry leading services. This is an exciting time for sports betting in the United States. We are confident our dynamic, evolving solutions will enable SBTech and others to prosper in this growing market."

SBTech provides award-winning omni-channel sports betting and gaming solutions and a full range of management services to 45 global partners. Defined by technical excellence and informed by deep market knowledge, SBTech's innovative solutions deliver competitive edge and rapid growth for all its clients. For more information visit www.sbttech.com.

Continent 8 Technologies is an award-winning, multi-jurisdictional global network solutions provider that connects, manages, and secures the world's most valuable information. Its advanced data centres and high-quality networks support critical online operations in both private and public-sector organisations in over 40 locations across Europe, Asia, and the Americas. Press Release

Continent 8 Partners with New Jersey to Open New Data Center at Atlantic City Convention Center: Creating the Hub for Sports Betting and Online Gaming in the United States and Beyond

October 9, 2018

LAS VEGAS, NV – New Jersey-licensed Continent 8 Technologies, the world's largest iGaming data center and global network solutions provider, is opening a new data center at the Atlantic City Convention Center in partnership with the CRDA (Casino Reinvestment Development Authority). Designed to Tier 3 standards, the data center will help make New Jersey the largest hub for online gaming, sports betting, and eSports in the United States.

This expansion fortifies Continent 8's commitment to Atlantic City and fulfills their pledge to create an online gaming hub designed for real-time data exchange. It will provide direct connectivity to their private global network spanning over 30 locations across Europe, Asia, and North and South America.

In addition to increasing capacity in New Jersey, the new data center will include connectivity to Mississippi, Nevada, New York, Pennsylvania and West Virginia locations, as well as providing a secure data redundancy and disaster recovery facility from which to host online gaming operators' most critical online operations. Operators seeking to enter the New Jersey and broader US market will benefit from this Atlantic City online gaming hub, its connection to the largest online gaming global network, and Continent 8's cyber security services.

Continent 8 is the only independent information technology provider licensed by New Jersey's Division of Gaming Enforcement to supply data center and network services to online gaming licensees. Interested online gaming operators are encouraged to contact Continent 8 (www.continent8.com) to speak with their team of global experts and secure capacity before the market becomes saturated.

Press Release

Continent 8 Expands Atlantic City Operations: Welcoming Sports Betting Operators

June 11, 2018

ATLANTIC CITY, NJ – New Jersey licensed Continent 8 Technologies, the world's largest online gambling data center and global network solutions provider, is expanding its capacity in Atlantic City – anticipating Governor Phil Murphy signing the sports-betting bill recently passed in the New Jersey Legislature. During the Governor's scheduled keynote address at the upcoming East Coast Gaming Forum (June 13-14) in Atlantic City, Murphy will undoubtedly address the new law and the future of gaming.

Continent 8 has been supporting clients in Atlantic City since 2014 and increases data center and network capacity to meet the growing needs of the online gaming industry, as required. In addition to supporting online gambling, sports betting, and eSports vendors in New Jersey, Continent 8 will soon go live in Pennsylvania and Nevada.

"The repealing of PASPA accelerated the demand for IT infrastructure solutions that fit the unique needs of online gaming and also meet online gaming licensing requirements," said Michael Tobin, CEO of Continent 8. "We are responding to those needs immediately with further infrastructure expansion in Atlantic City. We will strengthen this expansion again this coming July by adding another location with full redundancy and complete disaster recovery capability."

"As the only independent IT provider licensed by New Jersey's Division of Gaming Enforcement to supply both data center and network services to online gambling licensees, Continent 8 is well positioned to be the leader in connecting, managing, and securing critical data associated with the online gaming industry," said Nick Nally, Chief Development Officer for Continent 8. "By adding significant capacity in Atlantic City, we can definitely support clients seeking to capture the market opportunity presented as a result of the PASPA repealing."

This additional capacity being deployed is connected to over 30 other Continent 8 locations around the world. These locations all feature state-of-the-art managed services such as detecting and mitigating DDoS attacks that can be disastrous to online gaming. It will also provide a worldwide network for gaming companies to expand globally with private connectivity to existing established European and Asian operators, payment providers, software companies, and back-office systems in other licensed jurisdictions unlike any other company.

Interested online gaming organizations anywhere in the world should contact us to learn how Continent 8 can help you take advantage of the growth opportunities that are unfolding.

The Buzz

Data Center a Good Next Step in Atlantic City esports Development

The Press of Atlantic City

August 2, 2018

https://www.pressofatlanticcity.com/opinion/editorials/data-center-a-good-next-step-in-atlantic-city-esports/article_e1aedbe9-4ab9-5977-89f3-ee8da6a45d0d.html

FEATURED QUOTES

“Continent 8 wants to invest \$5 million to build a 6,000-square-foot data center, with the servers and internet connections needed for the network-intensive online competitions.”

“When teams battle in popular video games with chips ablaze, they need lightening quick networks to match the players’ response times. And thousands of fans need not just unimpeded immersion in the contests, but going forward will want more data-intensive experiences such as augmented reality glasses and holographic displays.”

“The company already has invested nearly \$2 million in Atlantic City and has data rooms for online gaming at Caesars Atlantic City and Ocean Resort Casino. The Casino Reinvestment Development Authority has approved the lease terms for the Convention Center facility, and the deal is expected to be completed soon.”

Continent 8 Technologies Expands Operations: Welcoming Sports Betting Operators

New Jersey-licensed Continent 8 Technologies, the world's largest online gambling data center and global network solutions provider, is expanding its capacity in Atlantic City. Our increased capacity gives gaming companies the ability to take advantage of incredible growth opportunities unfolding this year.

Welcoming Sports Betting Operators

Online gaming is poised to change dramatically through regulated sports betting as the laws change and provide tremendous opportunities for the entire gaming industry. Continent 8 has supported online gaming vendors in New Jersey since 2014, and has expanded to Mississippi, Nevada, Pennsylvania, and West Virginia, with upcoming locations in New York and Ohio.

Licensed Independent IT Gaming Provider in Atlantic City

Continent 8 is the only independent IT provider licensed by New Jersey's Division of Gaming Enforcement to supply both data center and network services to online gambling licensees. The Atlantic City data center is connected to over 40 other Continent 8 locations, providing a worldwide network for gaming companies to expand globally with private connectivity to European and Asian operators, payment providers, software companies, and back-office systems.

With 20 years of gaming and multi-jurisdictional experience, we are familiar with navigating challenging regulatory environments such as the one we now face. We have the capacity, experience, and breadth of solutions to help you start now — and expand to other global locations and jurisdictions.
